Subject: Las Conchas Fire - NSA & RTOC Updates
Date: 07/01/2011 09:29 AM

Ragan,

Spoke with Greg this morning - the NSA Secretary was briefed in on our air samplers and ASPECT. He was happy with our air sampling efforts, and seemed unconcerned about ASPECT.

Participated on RTOC call (still occurring) - provided a brief on fire status to date, air samplers, and ASPECT as per last evenings bullets. Al was thankful - seemed good - for the update. Al asked for locations of samplers, and I read them to call participants - San Ildefonso Pueblo had requested what EPA was doing to assist tribes - so was well received that we had located so many samplers in tribal areas.
